

- ❖ Name & Designation : Dr. Deepak Mittal, Senior Resident
- ❖ Address : Deptt. of Paediatric Surgery, AllMS, New Delhi-110029.
- ❖ Name of the International Conference/ Seminar/Symposium/Workshop : European Paediatric Surgeons Association-2014.
- ❖ Title of the abstract accepted : 1. Prevention of histological changes after experimental colonic diversion in rats (1621). 2. Does neonatal phototherapy delay testicular maturation in rats? (1632). 3. Urinary biomarkers in Unilateral pelvi-ureteric junction obstruction (1633). 4. Outcome of initial endoscopic management of ureteroceles in single systems and duplex systems (1689).
- ❖ Date & Venue : 18-21st June 2014. Dublin, Ireland.
- ❖ Money sanctioned : Rs 81,615/-
- ❖ Money reimbursed : Rs 1,00,000/- (Due to hike the fare of air travel an additional Rs.18,375/- were sanctioned)

Participation Report

PARTICIPATION REPORT AND CONTRIBUTION TO THE CONFERENCE: EUPSA 2014 had numerous pre-congress courses, state of the art lectures, symposia and "Meet the Expert" lunches; all aimed at providing up to date information to practicing paediatric surgeons and trainee paediatric surgeons. This congress brought together eminent pediatric surgeons from all corners of the world in order to discuss the multiple controversies in management protocols and to lay down the gold standards of treatment.

A poster on the **Outcome of initial endoscopic management of ureteroceles in single systems and duplex systems** was presented in the urology session on day 2 of the conference and was received well by the distinguished panel.

Three posters on basic research were presented on day 3 of conference, all were a

1. Does Neonatal Phototherapy Delay Testicular Maturation In Rats ?
2. Prevention Of Histological Changes After Experimental Colonic Diversion In Rats
3. Urinary Biomarkers In Unilateral Pelvi-Ureteric Junction Obstruction
